HELLO THERE, OUR DREAM IS TO HELP YOU MAKE GREAT HAPPEN

This course is available for Electricians and Non-electricians

Kick start your career with this entry-level course. Develop the practical skills and knowledge required to become a split air-conditioning and heat pump installer. With 50,000 expected job openings over the next five years for electrical tradespersons, now is the time to become a part of this growing industry.

In this course you will learn how to quote, install, and design reverse cycle air conditioning units. You will also develop skills in positioning, assembling and starting up single-head split air-conditioning units and systems
