HELLO THERE, OUR DREAM IS TO HELP YOU MAKE GREAT HAPPEN

Want to work as a para-professional

For a limited time, this course has State Government funding available. Conditions Apply. Call us for more details - 1800 654 447.

Work as a para-professional in the hydraulic services design field in the building industry. This course will equip you with the skills to design and size sanitary drainage systems, stormwater drainage systems, domestic treatment plant disposal systems and hot and cold water services. This course is also an entry requirement for those wishing to progress to the CPC50612 Diploma of Hydraulic Services Design.

<td>$2,550</td>
<td>$1,410</td>
</tr>
</tbody>
</table>

This is the total cost of the course for students who do not qualify for a subsidy, or the course does not receive any subsidy. Get a question? Enquire about your full fee study options.

The Queensland Government will offset the cost of study for eligible students. You will still need to pay for a portion of your study costs. The amount above is what you will need to pay.

You are eligible for the concession price of a course if you meet the eligibility requirements under the subsidised costing and:

- hold or are listed on an Australian Government Low Income Health Care Card or Pensioner Concession Card
- are Aboriginal or Torres Strait Islander
- have a disability.

You will need to provide evidence at the time of enrolment.

ARE YOU READY TO TAKE THE NEXT STEP ON YOUR PATH TO GREAT?

Enrol today to secure your spot in this course.

HOW TO ENROL

Enrol now

Enrol now, if you:

- meet the entry requirements (under the course details tab)
- checked the important dates (under the course details tab)

Outcome

CPC40912 Certificate IV in Plumbing and Services

Units

Students may complete the 15 competencies campus based (evenings and day) or online. Students can also complete the units in either a 12 month or 18 month study plan.

It is recommended that students do not enrol in more than 2 - 3 competencies which run simultaneously.

- CPCPCM4011A Carry out work-based risk control processes
- CPCPDR4011B Design and size sanitary drainage systems
- CPCPSN4011B Design and size sanitary plumbing systems
