

iPhone to Open_WiTAFE Connection Instructions

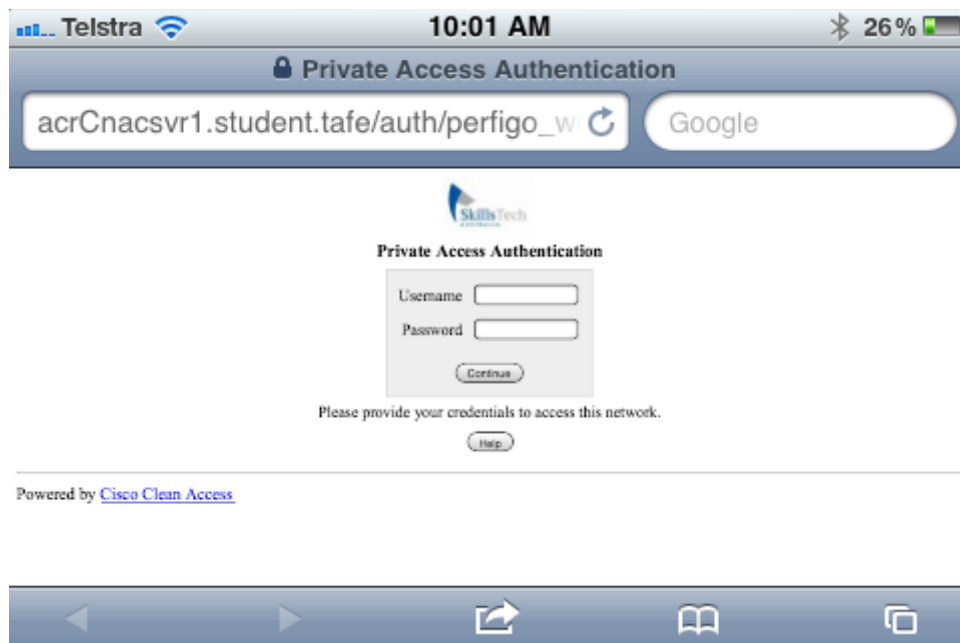

1. Go to Settings > WiFi > turn on WiFi > and if you are in range Open_WiTAFE should appear

2. Enter Password:
"openwitafe"
Click "Join"

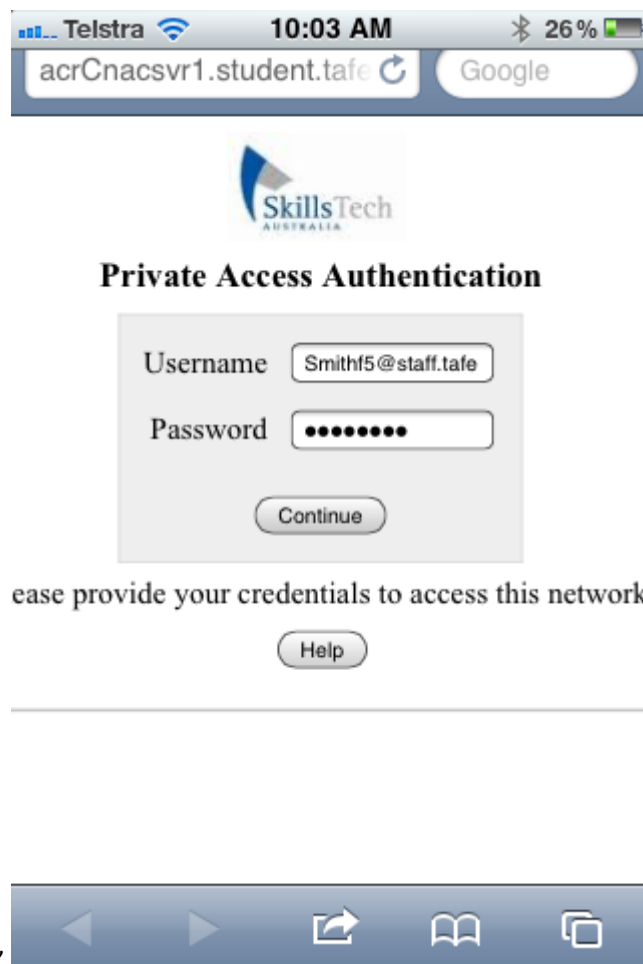

- Open an internet Web Browser (eg Safari) and the page will redirect to a Cisco Clean Access authentication page

- Enter your staff or student credentials as per the example below

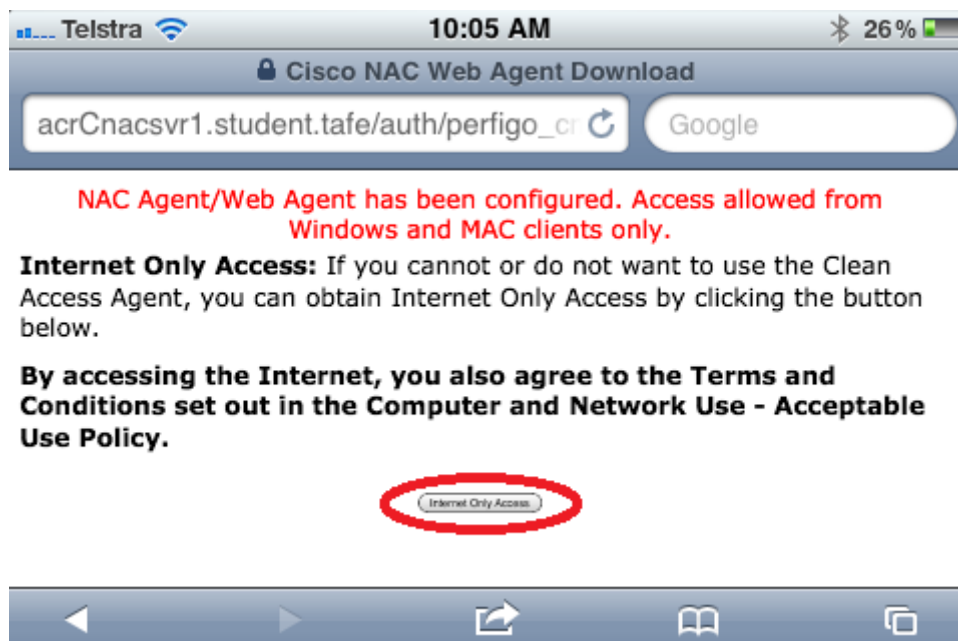

For staff username@staff.tafe and your normal network password

For students studentnumber@student.tafe and your normal network password

5. Click "Continue"
6. Click internet only access

You should now be connected to the Open_WiTAFE network

Please note – after 1 hour of inactivity or moving out of range you will need to re-authenticate by entering your credentials as in Step 4
